

VAT SAVITRI PROCEDURE

A procedure performed by Savitri to safeguard her husband from the clutches of Yamaraj!!!

A procedure to safeguard your husband and your entire family against unfortunate untimed death and to live a happy and contented life.

I can still recall the day when a family consisting of mother, son and her daughter in law were looking much tensed and were anxiously waiting to meet Gurudev. A sense of fear was clearly visible on their face and tears kept flowing out of their eyes. They appeared to belong to a fairly decent family and perhaps belonged to Gujarat. It was difficult to understand their situation and I even tried to talk to them to find out the reason behind their misery; however they preferred to remain silent.

And after few minutes, they got an opportunity to meet SadGurudev. They told Him their situation and Gurudev suggested some remedy to them. I still wanted to understand their misery but they didn't stop there and left towards their destination.

Around six months after this incident, the same family appeared again and they looked much happier this time. They were also accompanied with a small child, somewhat around six years old. Looking them in such a happy state, I took my step forward and greeted them with *Jai Gurudev*. They happily reciprocated and told me by the grace of SadGurudev they are fine now. It came to surface that their family had been facing a very difficult situation. The old lady told that her son's enemies had made up their mind to kill him and devastate the entire family. Another sad coincidence that the old lady shared was that if the first child born in their family is a boy, then the child doesn't live longer to attain an age of six years. She has a grandson who was already nearing six

years and this was making the situation even worse. On one side there was a life threat to the son and on the other hand, the grandson too was heading towards death. The entire family was spending their each and every moment of life in fear.

Then she shared her narrations that she had with Gurudev and said, *“Gurudev told us to perform this family safety procedure which removes the misfortune of untimely death circumstances from life. If followed with full dedication and devotion, one can see the results in a very short span of time. Gurudev even told them the same procedure was performed by Savitri to safeguard Satyavan from the clutches of Yamaraj.”*

Tears oozed out of the eyes of the old lady and her throat got choked. By showing her gratitude towards SadGurudev, she further continued, **“If Gurudev had not guided us, my entire family would have been ruined by now. My grandson has attained an age of six years and he is still alive. This is a miracle as it has never happened in last ten generations of my family. My son's enemies too have compromised with him and are more like his supporters now. It appears as if they have forgotten their enmity.”** I too got carried away by her words and by her reverence towards Gurudev. Gurudev remains calm and acts as a normal human being and continue to help this human race silently. The family then met SadGurudev and offered their gratitude towards Him. I could see their glowing face when they came out of Gurudev's room and happily left towards their home.

Few days later, I got an opportunity to sit with Gurudev and then I asked, “Guruji! What is this Savitri procedure? What all is possible after completing this sadhana and how to get success in this procedure?”

Revered Gurudev replied, *“It is the same procedure performing which Savitri was able to free Satyavan from the tangles of Yamaraj. The day when she was able to do so was later named as Vat Savitri Day.”*

While discussing, I came to know that this procedure is beneficial in all the below cases-

- Safeguarding son or husband from adversaries
- Safeguarding the entire family

- Safeguarding someone from the fear of un timed death
- For complete and happy family life.

This sadhana procedure can be carried out to fulfill any of the above mentioned wishes. However, it is important to perform the sadhana with full devotion and dedication to obtain the best outcomes.

Sadhana Procedure:

One needs **5 Kamyā Gutika, Poorna Siddhi rosary and Purnatva Prapti Yantra**. This is a one day procedure and **Vat Savitri Day** is the best day to perform this procedure. However, this sadhana procedure can also be performed on any **Wednesday**. Take a bath early in the morning and wear fresh white clothes. Sit on a yellow mat facing North and place a wooden plank before you. Cover the plank with a yellow cloth and place a picture of revered SadGurudev on it. Light a ghee lamp which should continue to burn during the entire sadhana duration. Now worship Gurudev with rice grains, vermilion and rose petals and chant one round of Guru Mantra. After this pray to SadGurudev for success in the sadhana.

Next take the yantra and offer some water to it and then wipe dry. Next offer few rose flowers to the yantra and speak out your wish for which you are performing this sadhana procedure. Offer some sweet made of milk to the yantra. Next take the rosary and chant **21 rounds** of the below mantra.

Mantra

|| Om Shreem Savitryai Phat ||

मंत्र

॥ ॐ श्रीं सावित्र्यै फट् ॥

During evening on the same day, the sadhak must revolve **5 times** around **Vat tree** encircling it with **Mauli** and keeping the five **Kamyā Gutika** in hands. Drop one **Kamyā Gutika** into the roots of the tree after each revolution. Drop the remaining sadhana articles in the roots or in a river the same day or the next day. This completes the sadhana procedure.
