

Akshaya Maha Laxmi Diksha

Which is impossible to obtain
without a great fortune

Akshaya Tritiya is highly **auspicious** and **holy day** for **Hindu communities**. It falls during **Shukla Paksha Tritiya** in the month of **Vaishakha**. Akshaya Tritiya falling on a **Rohini Nakshatra day** with **Wednesday** is considered very auspicious. The word **Akshaya** means never diminishing. Hence the benefits of doing any good deed on this day never diminish and remain with the person forever.

Akshaya Tritiya is believed to bring **good luck** and **success**. Most people **purchase Gold** on this day as it is believed that buying Gold on **Akshaya Tritiya** brings prosperity and more wealth in coming future. Being Akshaya day it is believed that **Gold, bought on this day, will never diminish and would continue to grow or appreciate.**

Akshaya Tritiya day is ruled by **God**

Vishnu who is the preserver God in the Hindu Trinity. According to Hindu mythology **Treta Yuga** began on **Akshaya Tritiya day**. Usually Akshaya Tritiya and Parashurama Jayanti, birthday anniversary of 6th incarnation of Lord Vishnu, falls on the same day but depending on starting time of Tritiya Tithi, Parashurama Jayanti might fall one day before Akshaya Tritiya day as observed this year.

Vedic astrologers also consider **Akshaya Tritiya** an auspicious day free from all malefic effects. As per Hindu Electional Astrology three **lunar days, Yugadi, Akshaya Tritiya** and **Vijay Dashami** don't need any **Muhurta** to start or perform any auspicious work as these three days are free from all malefic effects.

There is famous saying in English, *“It is not your fault if you were born poor, however it is entirely your fault if you died poor.”* The intent behind this line is that we don't have much control over our birth. However, when the Lord gave us this life, He gave us an opportunity to do good deeds and to live a great life on this planet. The harsh truth of life is that we all want to live a happy and contented life, yet very few of us are blessed to live a life which can be called as an ideal life.

Who doesn't wish to live a life full of luxuries? Who doesn't want to get what all they can think of? Who doesn't want to live in a big house or to wear expensive clothes or to drive luxurious cars or to eat what one wants to eat? However, for all these things we need money. We need money to remain healthy as none of the medicines are free, we need to pay for hospitalization, we need to pay doctor's fee etc.

Poverty is the greatest **curse** of **Kalayuga**. Have you ever seen a man struggling in life? Have you seen those small children begging on the roads? Have you seen those teenagers trying to sell something in scorching heat of the sun on red lights? Have you seen those men who are putting tremendous amount of effort in their life just to manage their survival? And even after so much struggle in life, they remain deprived of the most basic necessities of life. It is poverty which pushes a man or woman to follow the wrong path in life.

Do you think that a person wishes to become a **criminal** when he was born? All of us when we were a child, dreamt to become something great in life. However, not all of us had the same privileges in life which now

differentiates from being a **successful** and an unsuccessful person. And this harsh world forced them to enter into the world of crimes to meet their needs. No doubt, their means are incorrect, however they were tormented by the tough times in life.

Another pain that a person can go through in life is that they have **wealth**, but they still don't have a **healthy life**. There are several people around the world who possess a lot of wealth, yet they can't enjoy their life. They can't eat what they want, they can't move around freely to the places they want to visit and in a way remains confined within their house or hospital. **Then what is the need of such money if we can't enjoy it?**

And what about if you have a **lot of wealth** and a **great health**, yet you don't have a perfect life partner. He or she always remain irritated and there is a lack of harmony in life. Isn't such a house close to **hell** where **the husband and wife don't have affection towards each other?** Their children remain afraid and tensed and soon they either become detached from the family or grow a feeling of disbelief against the opposite sex. What is the use of such money and health in life?

There are also many cases where a person has wealth, health, good life partner, yet they don't have a child. Under such a situation, the man remains **worried** about what will happen to him in the old age, who will look after them, who will take care of the property etc. On the other hand the wife always feel low and detached because **she feels incompleteness in life without a child**. Even such life can't be called a blessed life.

An even worse situation arises when the child doesn't obey the parents. The parents remain worried about the child's life and always remains concerned as to what will happen to the child after them. Who will take his care? It has also been seen that few children fall into **bad company** and then brings disgrace to family. Under such a situation, the parents feel that it would have been more fortunate to remain childless throughout the life.

One another aspect of life is to gain fame in life. What is the use of that life where we are not able to make a mark for ourselves in this world? **How does our life become different than that of an animal?** Even animals eat, drink, move around, give birth to their offspring, so what differentiates a human from an animal.

It's the name, the prosperity, the authority of the human being that differentiates a man from an animal. **What is the advantage of getting this human life if we remain unable to make a mark in history?**

The definition of a complete life is to have **wealth, health, a good life partner, good and obedient children, name, fame and prosperity** in life. And all this is possible only by means of **Maha Lakshmi Diksha**. We can't change our parents, we can't just change the environment around, all that we can change is our **karma** in life. The most important thing in life is to become **a fortunate person** with a right attitude towards life.

Getting blessed with this Diksha is definitely like opening the doors of fortune for oneself. However, the best day to get initiated with this **Diksha** is the day of **Akshaya Tritiya**, which is the best day to retain all the good deeds. Retaining the positives of this Diksha means **wealth, health, name, fame, prosperity**, the Goddess who blesses us to have a good life partner, to have obedient children and to live a

successful life. Definitely, it has been correctly termed in the shastras that only the most fortunate ones can get initiated by this Diksha in life as only a few ones can live such a contended life.

Gurudev will be granting this Diksha on the occasion of **Akshaya Tritiya** this year. It is advised to grab this opportunity with both hands and get initiated with this Dikshas which even the Gods and Goddesses seek in their life. If you choose to live a poor life that is full of **struggles, failures, tears, pains and all sorts** of sufferings, then it is entirely up to you. As Tulsidas has rightly said, **"Sakal Padarath Hai Jag Mahi, Karam Heen Nar Pavat Nahi"**, i.e. all that exists in the world can be easily obtained in life, however, a man who doesn't do the right **karma** in life can't get them. It is thus entirely in our hands that we want to live a life that is full of **wealth, health, blessings, fortunes** or to continue to **suffer throughout the life and die poor**.

Akshaya Laxmi Diksha Cost ₹1,800/-
